PROFILE

Graphic designer with **8 years of professional experience**: three years at Sahara IT, four years designing sportswear at MonoTex and SportsVilla, and **my own online apparel brand**, run alongside my jobs since 2022. I take work from brief to production-ready files — social and marketing content, brand identity, apparel and 3D mockups, print. Today I also build **realistic AI product imagery**: compositing real products into campaign scenes while keeping them exact, then delivering every format, still and animated. I work remotely in English with a daily EST overlap.

EXPERIENCE

Founder & Creative Lead

2022 — Now

Poridheyo — my online apparel brand, run alongside my design jobs

- Built the brand identity and run every visual touchpoint: products, social, ads and the online catalogue.
- Create all product images — photography, mockups and AI composites — and campaign key visuals.
- Produce social content and short video ads; plan and run Meta ad campaigns.
- Set up an AI imagery workflow (ComfyUI, FLUX.2, Qwen-Image-Edit, Wan 2.2) for product shots, campaigns and motion.

Sports Apparel Designer

Jun 2022 — Oct 2025

SportsVilla — Jatrabari, Dhaka

- Designed custom kits for teams and organisations, from the client's brief to the approved design.
- Presented concepts on realistic mockups so clients could sign off before production.
- Prepared production-ready files and worked side by side with the production and manufacturing teams.
- Ran several orders at once against delivery dates.

EXPERIENCE — CONTINUED

Sports Apparel Designer

Aug 2021 — May 2022

MonoTex — Jatrabari, Dhaka

- Built team uniforms around each client's branding, then refined them with the client until approval.
- Kept design files organised and handed finished designs over to manufacturing.

Graphic Designer

May 2018 — Jul 2021

Sahara IT — Jatrabari, Dhaka

- Designed print and digital work for a range of clients, in line with each client's brand guidelines.
- Took projects from concept presentation to final files, several at a time.
- Prepared artwork for print production and for digital media.

SELECTED WORK

Glowtide ↗	A vitamin C serum brand built from a brief: wordmark, label and packshot, a 24-asset launch campaign, print (sell sheet, tri-fold, flyers, exhibition booth) and e-commerce pages with a marketplace listing.
Frostline ↗	Winter campaign for a technical sneaker from one product photo: 3 AI-composited concepts × feed, story and banner, still + motion (18 assets).
Ember ↗	Same brand system, opposite mood: a cosy winter campaign that stays on-brand without looking the same twice.
3D Apparel Mockup Suite ↗	Four apparel mockups modelled in CLO 3D and sold as editable PSDs, launched with four AI-composited campaign concepts that keep the original renders exact.
